

We're delighted that you've registered for the Women on the Move event Tuesday, March 11, 2008 between 17:00-18:30. As a dedicated supporter and sponsor, AMJ Campbell International has been working behind the scenes to prepare a great session. Here's what's in store:

Perceptions vs. Reality: What comes to mind when you think of India? Business in India? Women in business in India? You'll have a chance to share your impressions with your colleagues, discover different viewpoints and hear from two very different business-women working in Delhi:

In "Life in the City", you'll learn from an Indian lady:

- what it's like for a rural vs. city girl
- family dynamics
- living alone or marriage
- career development

Contrast this to the perceptions, surprises, obstacles and realities of a foreigner working in India and you'll understand some of the unique and hilarious challenges our customers face when moving to this part of the world.

See you in Delhi!
